Accessing remote learning inc using Teams.

Dear Parents/Carers

I realise how difficult this can be both as a Headteacher and parent. Particularly when you have more than one child and maybe only one device.

We have just found out (from Caythorpe Primary School) that you can use an Xbox or PlayStation 4 to access remote learning inc Microsoft applications such as Teams. Apologies if you already knew this but it was news to me.

Please click on the Twitter link below to open instructions on how to do this.

Please also find (on a separate attachment) step by step instructions for how to do this on an Xbox 1 with images, kindly put together by Alex Smith. Thank you so much Alex.

Kind Regards
Mr Allen
