

Accessing Teams through Xbox One

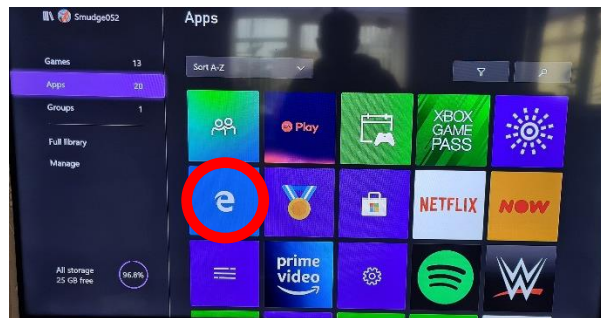

It is possible to access Microsoft Teams through an Xbox One. Follow the instructions below to find out how.

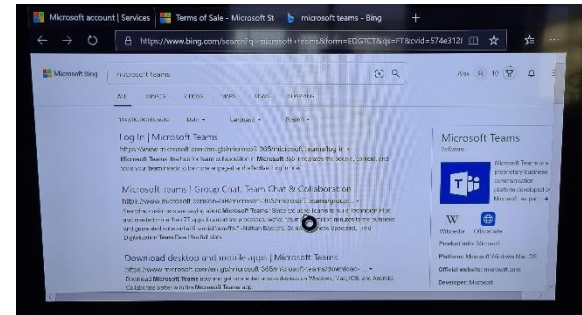

1. Power up the Xbox
2. Press the Xbox button on the controller – select the 'Games and Apps' tab.

3. Go to Apps and select Microsoft Edge (the internet) – This will load the internet browser

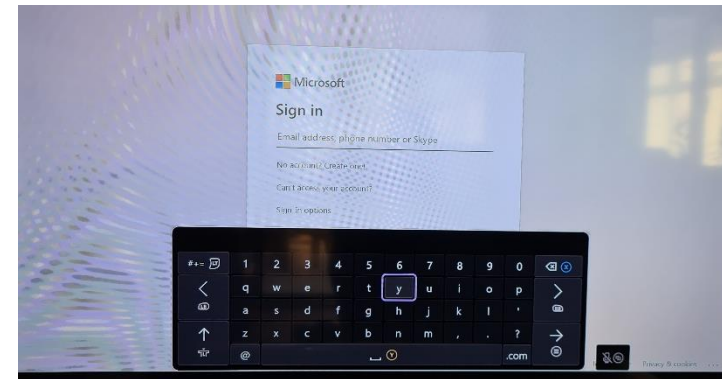

4. Select the 'web address bar' top of the page and enter Microsoft Teams into the search

5. This will take you to Microsoft Teams web app. Click Sign in.

6. Click sign in and enter you Log in details as directed.

7. This will now load Microsoft Teams – as it would on a computer. You can access chats and Teams channels you are a part of.
