Dear Parents/Carers

We would like to clarify that if any member of a child's household displays any of the symptoms of coronavirus (but has not yet had a test result) **or** has tested positive then they **MUST ALL** self-isolate.

The main symptoms of coronavirus are:

- a high temperature
- a new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- a loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal.

Most people with coronavirus have at least 1 of these symptoms.

With kind regards

R Allen

R Allen
